

Please do not allow LPFM stations to take precedence over FM translators. I listen to KLOVE 104.3 in Cincinnati, OH, and feel it is a tool that helps in the raising of my children, who love the station also. I see many KLOVE bumper stickers on cars in my community so I know my neighbors are listening as well. This station provides community activity information and music that are a wholesome, family-oriented alternative to what is provided by other local stations. I believe keeping KLOVE on the air is in the best public interest because it supports families, values and helps hold our behavior to a higher standard. Please keep KLOVE on the air.
